is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

is the best remedy known for Coughs, Consumption, Bronchitis, and Asthma.

effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

CAUTION.—The extraordinary medical report on the efficacy of Chlorodyne renders it of vital importance that the public should obtain the genuine, which bears the words—"Dr. J. Collis Browne's Chlorodyne." Vice-Chancellor Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant was deliberately untrue. Chemists throughout the land will confirm this decision that Dr. J. C. BROWNE was the inventor of CHLORODYNE. Overwhelming Medical Testimony accompanies each Bottle.

THE MOON'S CHANGES.

GARDENING.

WHEN the frost is not intense trench. manure, and turn up all vacant ground in ridges. In open and dry weather sow-choosing a mild exposure-a few early frame peas, common beans, lettuces, onions, carrots, short - topped radishes, curled parsley, and spinach, shielding them from frostby mats or straw; in hotbeds sow cauliflowers, cucumbers, melons, small salading and early cab-bages. Plant, prune, and train standard and wall fruit trees.

CLAREMONT. THIS well-known residence, interesting in many ways in connection with the later history of our Royal family, lies southwest of the pleasant Surrey village of Esher. It stands on the crest of a hill, surrounded by some fine trees, and with an ample slope of bright turf stretching before it; a noticeable, imposinglooking mansion of an oblong square in form, with a massive Corinthian portico in front. The mansion was originally built towards the close of the eighteenth century.

AT SHREWSBURY. THE curious old Market House in the Square at Shrewsbury, shown in our engraving, was built in the reign of Elizabeth, and is unequalled in ornamental decoration by any similar structure in the kingdom. It was com-pleted, according to an inscription over the northern arch, in 1595. It forms one of the picturesque objects which fix themselves in the memory of every visitor to Shrewsbury-a town with many striking architectural features.

HE main crop of vegetables should be put in the ground during this month. Sow asparagus, Brussels sprouts, caulifiower, celery, broc-coli, spinach, beets, onions, Dutch turnips, carrots, feas and beans, parsnips, turnips, and rooted rad-ishes. Plant red cabbage, kidney beans, sea-kale, and cauliflowers from frames, and sow melons and cucumbers in hotbeds. Dress borders and strawterry beds and finish pruning. Strike calceolarias, verbenas, scarlet geraniums, fuchsias, Chinese chrysanthemums, and plant gladioluses.

EATON HALL. THE palace of the Duke of Westminster at Eaton is probably the largest, and undoubtedly is by far the most costly, private residence in England. It is one of the "nine won-ders" of the kingdom. The present Hall, which is the fourth that has heen built upon the site, took about thirteen years in building, and was com-pleted a little over twenty years ago. It is con-veniently reached from Chester either by road, or river.

ASPALL HALL.

Wien Lord Kitchener, after his signal victory over the Khalifa at Omdurman in September, 1898, was awarded a peerage he took his seat in the House of Lords as Baron Kitchener of Khartoum and of Aspall in the county of Suffolk. Aspall Hall, the home of the Kitcheners, is the pleasant, home-looking residence represented by the artist in the above engraving. Lord Kitchener, we may add, is the eldest son of the late Lieut. Col. H. H. Kitchen, and was born in 1850.

ARUNDEL CASTLE. THE Castle of Arundel, in Sussex, is a striking object. It was built soon after the Norman Conquest, and is an oblong, including five and a half acres within its walls. It was laid in ruins during the civil wars of Charles I.; but, being the baronial residence of the Duke of Norfolk, it was early in the last century restored to its former Gothic magnificence. The keep, containing the dungeon, is a circular Norman tower of imposing strength.

AT NETLEY.

THE Royal Victoria Hospital at Netley is the headquarters of the Medical Staff and the seat of the Army Medical School. It is of Italian design, stands within ornamental grounds, and commands a splendid view over Southampton Water. Her late Majesty Queen Vic-toria laid the first stone in 1856, and from that time to the close of her long life was a frequent visitor, taking the warmest interest in her invalided and wounded troops.

THEOBALDS.

AT Cheshunt, in Hertfordshire, there are many interesting historical buildings and sites. "Theobalds" makes a prominent appearance in the history of Lord Burleigh, Queen Elizabeth, James I., and Charles II. It was the favourite hunting seat of James I. who surrounded the park with a brick wall measuring ten miles in circumference.

NOTE.—The equivalents are not in all cases the exact equivalents of the exchange of the day, but rates which are convenient for comparisons over long periods. This applies especially to those countries with inconvertible paper currencies.

MONEY ORDERS FOR FOREIGN COUNTRIES.—We have given on a preceding page the rates charged for these. Orders issued in the United Kingdom on foreign countries and the British possessions and Colonies are payable for twelve months after the month of issue, with the following exceptions: Orders payable in Austria (with its agencies), Hungary, and Chili are valid for six months only after the month of issue.

In calculating amounts payable in the United Kingdom, the foreign offices of exchange reserve to themselves the power of dealing with fractions of a penny as they may deem most convenient.

The Months in the above Table are calculated as only Twelve Months to the Year. If the Yearly Wages be Guineas instead of Pounds, for each Guinea add one Penny to each Month, or one Farthing to each week. Thus, Six Pounds per Year are Ten Shillings per Month; but if the Wages be Six Guineas, add one Penny for each Guinea, that is, Sixpence, and it will then be Ten Shillings and Sixpence per Month. In like manner, by adding Six Farthings to each week, the Wags will be Two Shillings and Fivepence per Week.

RVOUS DEBILITY CURED.

A BILE BEAN VICTORY.

Mrs. Holdsworth, of Easy Terrace, Richmond Hill, Leeds, has had an experience which, fortunately, few mortals are called upon to endure. For a period of between five and six years shehas been struggling under ill-health; and never completely out of the hands of the medical practitioner. How long she could have continued her programme it is impossible to say, but she at last stumbled across a remedy so eminently simple, cheap, and efficacious that she had persis-

tently ignored it for more complex and more costly curatives which in the end proved not to be remedies at all. At the present time she is better than she has been for years. It came about in this way. About six years ago she began to suffer from nervous debility, and gradually grew worse until she could not hold a plate in her hand, and could not stand to wash one. At last, when she was so bad that she could not stand, and was in momentary fear of a stroke, a doctor was called in, and prophesied a long and severe illness. And so it proved. Her daughters had to take charge of all the housework, as she was absolutely unable to stir a hand in that direction. "I could not lift a pan or a kettle from the fire," she says, "or hold anything, if I had been paid ever so much for doing it."

BUBBARS

Then several other ailments began to appear. To use her own words:

"I began to have pains in my head, dizziness, and such queer sensations. If I walked a yard I had to cling hold of something, for I felt as if I was falling. Indigestion troubled me fearfully, and my food gave me terrible pain. I got into a shocking state. This went on for five years, and you can imagine what I was reduced to. One day a neighbour recommended me to try some beans, which she had been taking, and which had done her good. I got

some, and it really seemed as if they went straight to the place. first box cured me of dizziness, and then I began to have no more pain after meals. By degrees the in-digestion left me altogether, and then I gradually got stronger. They then I gradually got stronger. They called the medicine Charles Forde's 'Bile Beans,' and by taking these I have reaped more good during the past six months than I did from all the medicine I took in the six years I am now better than I before. have been for years, and, what is best, I can do my work. They are certainly a fine medicine, and I don't mind you stating my case as an example of what they can cure."

I CAN NOW DO MY WORK.

CONSTIPATION AND INDIGESTION CURED.

Station Hill, Wigton, Cumberland,

July 7th, 1900.

To the BILE BEAN MANUFACTURING Co.

Dear Sirs,—I am happy to say I have found the greatest benefit by taking your BILE BEANS. My ailments were chiefly constipation and indigestion, and I would not be without BILE BEANS, as I have found such benefit by their use. I have also recommended them to my friends, and spoken very highly of them, because of the good they have done me.

If this statement is of any use you can publish it.

Yours truly,

(Signed) E. JOHNSON.

BIGBBANS

A WONDERFUL DISCOVERY.

In all parts of the world, BILE BEANS FOR BILIOUSNESS have earned for themselves by their unequalled excellence a reputation which places them to-day far in advance of any other similar preparation. This specific is not a carelessly prepared nostrum; on the contrary, it is the result of long and thoughtful research on the part of an Australian Chemist, who, after years of study, discovered a natural vegetable substance which after further study he succeeded in compounding with other ingredients, so that its effect on the digestive organism of the human system is identical with that of the natural bile created by the liver. Finding this, then, to be the most natural cathartic obtainable, the public rapidly accepted it in preference to all others, and consequently the old methods of starving and the use of pepsin and bismuth sank into insignificance and oblivion. Acting on the bowels in a gentle manner, Bile Beans do not weaken or in any way distress the patient. This is a point in which they differ materially from nearly all laxative remedies sold to-day, as the latter usually act in a violent manner, weakening the patient, and in many cases doing more harm than good.

CHARLES FORDE'S BILE BEANS FOR BILIOUSNESS

Have been found an undoubted cure for Headache, Influenza, Costiveness, Piles, Liver Trouble, Bad Breath, Rheumatism, Liver Chill, Indigestion, Constipation, Debility, Anæmia, Female Ailments, Pimples, and all ailments arising from defective bile flow, assimilation, and digestion. Bile Beans are obtainable of all Chemists, or Post-Free from THE BILE BEAN MANUFACTURING CO., 119 and 120, London Wall, London, E.C., on receipt of price, 1s. 1½d. and 2s. 9d. large box, containing three times small size; three large boxes, 7s. 6d., or six for 14s.

BILIOUSNESS AND HOW TO CURE IT.

A more common and annoying complaint than Biliousness it is hard to find. It prohibits the sufferer from doing work of any kind, holding a conversation, or even resting quietly; not only this, but the nausea is most disagreeable, and the taste and breath are exceedingly offensive. It is an ailment caused by a surcharge of bile becoming stagnant in the stomach, and is generally accompanied by Indigestion and Constipation, vomiting, and a yellow appearance of the complexion. Dizziness and violent headaches are usual symptoms. The bile is the natural purgative of the body, and is secreted by the liver; if it fails to flow in its usual channels. or to perform its usual duties, the liver is responsible. A remedy should be applied at once that will act in an efficient manner, and the remedy to take is BILE BEANS, which are compounded expressly for ailments of this sort. They are so prepared that they act directly on the liver, helping it to help itself, and enabling it to secrete enough bile to flush the bowels thoroughly, and thus clear off all waste and offensive matter from the system. This remedy is well known, and is conceded the most mild and effective medicine of the age. It does not afford mere temporary relief, but an absolute and lasting cure. It sells on its merits alone.
